

Screens and Souls Part 1: "The Blessings"

1. Have you ever thought of the New Testament letters as the apostles' way of leveraging technology for the sake of Jesus? What other ways did the early Christians use the latest inventions in their mission to make more disciples?
2. Use some form of technology to encourage at least five people this week. For example, copy and paste a Bible passage and text it to a friend who needs some hope in their life.
3. Do you have the YouVersion Bible App downloaded and located in a visible spot on your devices? If not, get connected to the world's most popular Bible app.
4. Many followers of Jesus find that technology helps them be *consistently* generous with their money. Do you believe that auto-give features are a blessing or a bad thing when it comes to our faith?
5. Use some form of technology to invite at least one person to join you for church next week.

1. What does confidence mean?
2. What hard things did Peter face? What difficult things do kids your age face?
3. What does it mean to have confidence in God?
4. How did Peter show confidence in God? How did the group of believers show confidence in God?
5. How is having confidence in people different from having confidence in God? Why can we always have confidence in God?
6. How can you trust in God in difficult times?
